Committee on Sanitary and Phytosanitary Measures

NOTIFICATION

- 1. Notifying Member: <u>EUROPEAN UNION</u>
 - If applicable, name of local government involved:
- 2. Agency responsible: European Commission, Health and Food Safety Directorate-General
- 3. Products covered (provide tariff item number(s) as specified in national schedules deposited with the WTO; ICS numbers should be provided in addition, where applicable): Cereals (HS Codes: 1001, 1002, 1003, 1004, 1005, 1006, 1007, 1008), foodstuffs of animal origin (HS Codes: 0201, 0202, 0203, 0204, 0205, 0206, 0207, 0208, 0209, 0210) and certain products of plant origin, including fruit and vegetables
- 4. Regions or countries likely to be affected, to the extent relevant or practicable:
 - [X] All trading partners
 - [] Specific regions or countries:
- **Title of the notified document:** Draft Commission Regulation amending Annexes II, III and V to Regulation (EC) No. 396/2005 of the European Parliament and of the Council as regards maximum residue levels for chlorpropham, fuberidazole, ipconazole, methoxyfenozide, S-metolachlor and triflusulfuron in or on certain products (Text with EEA relevance). **Language(s):** English. **Number of pages:** 6 and Annexes

https://members.wto.org/crnattachments/2024/SPS/EEC/24 08388 00 e.pdf https://members.wto.org/crnattachments/2024/SPS/EEC/24 08388 01 e.pdf https://members.wto.org/crnattachments/2024/SPS/EEC/24 08388 02 e.pdf https://members.wto.org/crnattachments/2024/SPS/EEC/24 08388 03 e.pdf https://members.wto.org/crnattachments/2024/SPS/EEC/24 08388 04 e.pdf

- MRLs for chlorpropham, fuberidazole, ipconazole, methoxyfenozide, S-metolachlor and triflusulfuron in certain food commodities following the non-approval of fuberidazole, ipconazole, s-metolachlor and triflusulfuronmethyl in the European Union; the non-availability of confirmatory data of methoxyfenozide required by Regulation (EU) 2023/1069 for aubergines/eggplants; and the monitoring data collected for chlorpropham requested by Commission Regulation (EU) 2021/155. MRLs for these substances in certain commodities are lowered. Lower MRLs are set after deleting old uses which are not authorised any more in the European Union. The draft Regulation also proposes some product-specific LOQ adaptions in line with technical progress.
- 7. Objective and rationale: [X] food safety, [] animal health, [] plant protection, [] protect humans from animal/plant pest or disease, [] protect territory from other damage from pests.

- 8. Is there a relevant international standard? If so, identify the standard:
 - [X] Codex Alimentarius Commission (e.g. title or serial number of Codex standard or related text): Codex Maximum Residue Limits for pesticides chlorpropham, methoxyfenozide, in some commodities. CODEX MRLs LIST is available at https://www.fao.org/fao-who-codexalimentarius/codex-texts/dbs/pestres/pesticides/en/
 - [] World Organization for Animal Health (OIE) (e.g. Terrestrial or Aquatic Animal Health Code, chapter number):
 - [] International Plant Protection Convention (e.g. ISPM number):
 - [] None

Does this proposed regulation conform to the relevant international standard?

[] Yes [X] No

If no, describe, whenever possible, how and why it deviates from the international standard: The European Food Safety Authority published reasoned opinions on the existing MRLs for chlorpropham and methoxyfenozidey. Based on these opinions, Regulation (EC) No. 396/2005 should be amended following a risk analysis approach.

9. Other relevant documents and language(s) in which these are available: Regulation (EC) No. 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC http://eur-lex.europa.eu/legal-content/EN/ALL/?uri=CELEX%3A32005R0396

EFSA (European Food Safety Authority), 2020. Reasoned Opinion on the setting of temporary maximum residue levels for chlorpropham in potatoes. EFSA Journal 2020;18(6):6061 https://doi.org/10.2903/j.efsa.2020.6061

EFSA (European Food Safety Authority), 2024. Modification of the existing maximum residue level for methoxyfenozide in aubergines. EFSA Journal 2024, 22(7), e8922. https://doi.org/10.2903/j.efsa.2024.8922 (available in English)

10. Proposed date of adoption (dd/mm/yy): 18 June 2025

Proposed date of publication (dd/mm/yy): 18 July 2025

- 11. Proposed date of entry into force: [] Six months from date of publication, and/or (dd/mm/yy): This Regulation shall enter into force on the twentieth day following that of its publication in the Official Journal of the European Union, and apply six months thereafter.
 - [] Trade facilitating measure
- 12. Final date for comments: [X] Sixty days from the date of circulation of the notification and/or (dd/mm/yy): 14 February 2025

Agency or authority designated to handle comments: [X] National Notification Authority, [X] National Enquiry Point. Address, fax number and e-mail address (if available) of other body:
