Chapter 70

Glass and glassware

Notes.

1. This Chapter does not cover:

- (a) Goods of heading 32.07 (for example, vitrifiable enamels and glazes, glass frit, other glass in the form of powder, granules or flakes);
- (b) Articles of Chapter 71 (for example, imitation jewellery);
- (c) Optical fibre cables of heading 85.44, electrical insulators (heading 85.46) or fittings of insulating material of heading 85.47;
- (d) Optical fibres, optically worked optical elements, hypodermic syringes, artificial eyes, thermometers, barometers, hydrometers or other articles of Chapter 90;
- (e) Lamps or lighting fittings, illuminated signs, illuminated name-plates and the like, having a permanently fixed light source, or parts thereof of heading 94.05;
- (f) Toys, games, sports requisites, Christmas tree ornaments or other articles of Chapter 95 excluding glass eyes without mechanism for dolls or for other articles of Chapter 95); or
- (g) Buttons, fitted vacuum flasks, scent or similar sprays or other articles of Chapter 96.
- 2. For the purposes of headings. 70.03, 70.04 and 70.05:
 - (a) glass is not regarded as "worked" by reason of any process it has undergone before annealing;
 - (b) cutting to shape does not affect the classification of glass in sheets;
 - (c) the expression "absorbent, reflecting or non-reflecting layer" means a microscopically thin coating of metal or of a chemical compound (for example, metal oxide) which absorbs, for example, infra-red light or improves the reflecting qualities of the glass while still allowing it to retain a degree of transparency or translucency, or which prevents light from being reflected on the surface of the glass.
- 3. The products referred to in heading 70.06 remain classified in that heading whether or not they have the character of articles.
- 4. For the purposes of heading 70.19, the expression "glass wool" means:
 - (a) Mineral wools with a silica (SiO₂) content not less than 60% by weight;
 - (b) Mineral wools with a silica (SiO₂) content less than 60% but with an alkaline oxide (K₂O or Na₂O) content exceeding 5% by weight or a boric oxide (B₂O₃) content exceeding 2% by weight.
 - Mineral wools which do not comply with the above specifications fall in heading 68.06.
 - Throughout this Schedule, the expression "glass" includes fused quartz and Other fused silica.

Sub-heading Note.

5.

For the purposes of sub-headings. 7013.21, 7013.31 and 7013.91, the expression "lead crystal" means only glass having a minimum lead monoxide (PbO) content by weight of 24 per cent.
